

VIRGINIA CASA
HANDMADE IN ITALY

Virginia Casa was established in 1971 at Montesperoli on the site of an established pottery, where the close relationship between territory and art has influenced a way of life for generations.

Virginia Casa's designs reflect a strong earthy appeal through a skillful combination of local clays with red and white earth. The colours of the countryside and the freshness of the sea blues are captured and contrasted with ancient reds and surprising greys to produce shapes and forms that define the Tuscan lifestyle.

Celebrating culture through nature provides the creative inspiration that lies at the heart of Virginia Casa, producing drastic colour changes, vertical touches of light, flowers on a window sill, peonies, hydrangeas, wisteria and lilies.
